## Volume discount

- For orders of 50 - 150 units, we offer an additional discount of 5% on the total amount.
- For orders of more than 150 units, we offer an additional discount of 10% on the total amount.

Contact us for a personalised quote via WhatsApp +34 601 621 895 or by email info@pitayadelsol.com

## Ordering and reservation conditions

- **Minimum order:** depends on the category, shown in each price table.
- **Advance reservations:** For orders of more than 100 plants of the same variety, we recommend reserving at least three months before the planned delivery date to guarantee the availability of the plants.

# Packaging and transport

## Type of packaging

- Rooted cuttings are shipped in ventilated boxes of the following sizes:
  – 60 × 40 × 30 cm: maximum 20 plants per box.
  – 50 × 35 × 20 cm: maximum 10 plants per box.
- Large plants are transported in large ventilated boxes of 120 × 40 × 40 cm, with a maximum of 15 plants per box.

## Shipping costs

Shipping costs vary depending on the destination, the distance, whether delivery is on the mainland or on an island, and the number and dimensions of the boxes.

For this reason, we always request a quote from the transport company for each order. We will inform you of the shipping cost before confirming the order.

Alternatively, you can collect your order directly at our premises, always by appointment.

## Shipment tracking

All our shipments have a tracking number, so you can check the status of the transport and the delivery.

## Shipping destinations

At present, our experience in shipping plants is mainly focused on countries of the European Union.

Requests for shipments to destinations outside the EU, such as Morocco, will be assessed individually and must be confirmed in advance, as they may be subject to specific transport and phytosanitary documentation requirements.

## Phytosanitary documentation

We are registered in the ROPVEG and authorised to issue plant passports. Plant shipments for which this document is mandatory are accompanied by the corresponding plant passport.

If you wish, we can provide a copy together with the order documentation.
